SmartPrograms for Children

## SMARTVACATIONS APRIL 2017

Four Days of Fun Activities for Children 5 - 12,  
April 2017, Tuesday through Friday, April 18 - 21, 2017  
Classes meet in the Unified Arts Building/Tappan Gym at BHS.

Offered by  
**Brookline Adult & Community Education**  
a program of the Brookline Public Schools  
Call 617-730-2700 or register online at [brooklineadulted.org](http://brooklineadulted.org)

# SMART VACATIONS! APRIL 2017

Activities for children ages 5 - 12, Tuesday through Friday, April 18 - 21, 2017

Join us in the morning, afternoon, or for the entire day. Classes meet in the Unified Arts Building/Tappan Gym at BHS.

## EARLY MORNING DROP OFF 8:00AM—9:00AM

Morning Fun & Games Eric Bland  
(ALL AGES)

Enjoy the start of the day with games and activities that allow students to get going at their own pace.

## OPTION 1 MORNING HALF DAY ONLY TUESDAY THRU FRIDAY 9:00AM—12:00PM

Puppets and Beyond! Puppet Showplace Theater  
(AGES 5 - 7)

Exercise your imagination by designing and building never-before-seen puppet characters using multiple puppetry styles (mouth puppets, marionettes, etc). Then, learn how to bring your characters to life in mini plays.

Music Video Brookline Interactive Group  
(AGES 8 - 12)

Create and star in your own music video! In this program, you will learn how to script, shoot, act in, and edit footage to create an original music video for a favorite song.

## OPTION 2 FULL DAY

TUESDAY THRU FRIDAY  
9:00AM—4:30PM

(AGE RANGE AND SCHEDULE FOR BELOW CLASSES ARE LISTED ON THE REGISTRATION FORM)

Bringing Books to Life Daniel Lipton

Explore some of our favorite children's books by reading them together. Then we'll use art, music, and drama to bring the stories to life.

Construction Inventors Daniel Lipton

Design a marble slide, create popcorn rock, build towers! Hands-on construction using an assortment of building materials will inspire our inner engineer.

Ancient Artillery Eric Bland

Storm castle walls with your very own siege engines. We'll learn about and build catapults using everyday items, then test our designs against various fortifications.

3-2-1 Rockets Eric Bland

Blast your imagination and design skills sky-high. Learn how to construct, test, and launch homemade rockets using everyday items.

Yoga Around the World Elizabeth Heller

Take a plane to Paris, a boat to Spain, a train to the great wall of China, and a rocketship to Africa! Move, breathe and practice yoga postures and explore facts about other countries!

Paper Projects Michelle Mindick

Paper is such wonderful invention. We'll explore its strength and versatility in all sorts of projects, such as making pop-up books, a tree full of birds, and spinning tops.

Cooking Creations Katherine Judd

We'll read recipes and learn our way around the kitchen as we cook up yummy creations such as savory biscuits, cheesy macaroni muffins, banana bread, and healthy snack bars.

Power Workout TBA

Start the day with an energy boost. Workouts include stretching, standing poses, and action games that take place both indoors and outside.

Computers: Coding with Scratch Eliade Novat

Increase your technical proficiency and confidence. Learn concepts of coding by building fun and simple games and scenarios using Scratch, a computer program developed at M.I.T. .

Computers: Photoshop Basics Eliade Novat

Design journal pages that tell a story in pictures and graphics while exploring the many possibilities that Photoshop offers.

Lunch & Quiet Time/Swim

Elizabeth Heller and Mark Beshansky  
After eating their bagged lunches, students may play boardgames, draw, or play outdoor recess games. Children aged 7 and older may opt to swim in the Tappan Street Pool.

Soccer & Gym Games Mark Beshansky

Players of all levels will enjoy soccer and gym games that offer friendly competition and team building challenges, and focus on problem solving and creative thinking.

Theater Games Daniel Lipton

Combine creativity with action in the world of theater pantomime, improvisation, and more. Let your imagination soar!

Improvisation & Playwriting Daniel Lipton

Play fun theater games, and then take them beyond improvisation by writing polished and honed mini-plays. Daily performances included.

Painting Projects Katie Cullinan

We'll work with paint in a variety of 2D and 3D projects ranging from landscapes to mixed media sculpture.

A Handful of Clay TBA

Enjoy the wonders of clay in a pottery studio. Learn basic hand-building techniques and how to sculpt ceramic creations.

Baker's Delight Elizabeth Heller

We'll have fun measuring, mixing, and whipping up treats such as strawberry shortcakes, olympic cookies, rice crispie treats, and lemon pound cake with honey butter!

Mechanical Science Michelle Mindick

Use your thinking skills as you learn how to build kaleidoscopes and cars with everyday materials and explore scientific wonders.

Science Magic Michelle Mindick

Expand your scientific curiosity as we explore textures and solutions while making our own science clay and jelly bean skyscrapers.

## OPTION 3

AFTERNOON HALF DAY ONLY  
TUESDAY THRU FRIDAY  
1:30PM—4:30PM

Advertising Design &  
Video Production Marcy Sacks  
(AGES 9 - 12)

Learn product design basics in the graphics lab as you invent your own wacky cereal and it's packaging. Then, in a green screen studio, we'll make a commercial that advertises your tasty breakfast treat.

LATE AFTERNOON PICK UP  
4:30 PM—6:00 PM

Afternoon Fun & Games Mark Beshansky  
(ALL AGES)

Students will have a variety of choices each afternoon, including art projects, board games, stories, drawing, and acting games.

SmartVacations also offers SmartSummer programs, June - August, 2017. Visit [brooklineadulthood.org](http://brooklineadulthood.org) or call 617-730-2700.
